

- 1** A summary of 50 values of x gives

$$\Sigma(x - q) = 700, \quad \Sigma(x - q)^2 = 14\,235,$$

where q is a constant.

- (a)** Find the standard deviation of these values of x . [2]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

- (b)** Given that $\Sigma x = 2865$, find the value of q . [2]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

- 2 (a) Find the number of ways in which a committee of 6 people can be chosen from 6 men and 8 women if it must include 3 men and 3 women. [2]

.....

.....

.....

.....

.....

.....

.....

A different committee of 6 people is to be chosen from 6 men and 8 women. Three of the 6 men are brothers.

- (b) Find the number of ways in which this committee can be chosen if there are no restrictions on the numbers of men and women, but it must include no more than two of the brothers. [3]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

- 3 (a)** Find the number of different arrangements of the 8 letters in the word COCOONED. [1]

.....

.....

.....

.....

.....

.....

.....

.....

- (b)** Find the number of different arrangements of the 8 letters in the word COCOONED in which the first letter is O and the last letter is N. [2]

- [illegible]

This image shows a single page of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page, typical of notebook or legal stationery. There are no margins, text, or other markings on the page.

(b) Find the value of μ and the value of σ . [5]

[illegible]

- 5 The populations of 150 villages in the UK, to the nearest hundred, are summarised in the table.

Population	100 – 800	900 – 1200	1300 – 2000	2100 – 3200	3300 – 4800
Number of villages	8	12	50	48	32

- (a) Draw a histogram to represent this information.

[4]

- (b) Write down the class interval which contains the median for this information. [1]

.....

.....

.....

.....

.....

.....

- (c) Find the greatest possible value of the interquartile range for the populations of the 150 villages. [2]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

- 6** Eli has four fair 4-sided dice with sides labelled 1, 2, 3, 4. He throws all four dice at the same time. The random variable X denotes the number of 2s obtained.

(a) Show that $P(X = 3) = \frac{3}{64}$. [2]

.....

.....

.....

.....

.....

.....

.....

.....

(b) Complete the following probability distribution table for X . [2]

x	0	1	2	3	4
$P(X = x)$	$\frac{81}{256}$			$\frac{3}{64}$	$\frac{1}{256}$

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(c) Find $E(X)$.

[2]

.....

.....

.....

.....

.....

.....

Eli throws the four dice at the same time on 96 occasions.

(d) Use an approximation to find the probability that he obtains at least two 2s on fewer than 20 of these occasions. [5]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

- 7 A children's wildlife magazine is published every Monday. For the next 12 weeks it will include a model animal as a free gift. There are five different models: tiger, leopard, rhinoceros, elephant and buffalo, each with the same probability of being included in the magazine.

Sahim buys one copy of the magazine every Monday.

- (a) Find the probability that the first time that the free gift is an elephant is before the 6th Monday. [2]

.....

.....

.....

.....

.....

.....

.....

- (b) Find the probability that Sahim will get more than two leopards in the 12 magazines. [3]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

- (c) Find the probability that after 5 weeks Sahim has exactly one of each animal. [3]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Additional Page

If you use the following lined page to complete the answer(s) to any question(s), the question number(s) must be clearly shown.

This image shows a full page of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page, typical of notebook or legal stationery. There are no margins, text, or other markings on the page.
