MATHEMATICS 9709/53

Paper 5 Probability & Statistics 1

May/June 2023

1 hour 15 minutes

You must answer on the question paper.

You will need: List of formulae (MF19)

INSTRUCTIONS

- Answer all questions.
- Use a black or dark blue pen. You may use an HB pencil for any diagrams or graphs.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do not use an erasable pen or correction fluid.
- Do not write on any bar codes.
- If additional space is needed, you should use the lined page at the end of this booklet; the question number or numbers must be clearly shown.
- You should use a calculator where appropriate.
- You must show all necessary working clearly; no marks will be given for unsupported answers from a calculator.
- Give non-exact numerical answers correct to 3 significant figures, or 1 decimal place for angles in degrees, unless a different level of accuracy is specified in the question.

INFORMATION

- The total mark for this paper is 50.
- The number of marks for each question or part question is shown in brackets [].

This document has 12 pages.

(a)	State the value of $E(V)$	F1
(a)	State the value of $E(X)$.	[1]

The random variable *X* takes the values 1, 2, 3, 4. It is given that P(X = x) = kx(x + a), where *k* and *a*

Given that $P(X = 4) = 3P(X = 2)$, find the value of a and the value of k.

(b)	Draw up the probability distribution table for X , giving the probabilities as numerical fractional fractions of the probabilities as X ,	ctions.
		•••••
		•••••
(c)	Given that $E(X) = 3.2$, find $Var(X)$.	[2]

4 The times taken, in minutes, to complete a cycle race by 19 cyclists from each of two clubs, the Cheetahs and the Panthers, are represented in the following back-to-back stem-and-leaf diagram.

	Ch	eeta	ahs]	Pant	her	S	
			9	8	7	4					
8	7	3	2	0	8	6	8				
		9	8	7	9 10 11	1	7	8	9	9	
6	5	3	3	1	10	2	3	4	4	5	6
		9	8	2	11	1	2	8			
				4	12	0	6				

Key: 7 |9| 1 means 97 minutes for Cheetahs and 91 minutes for Panthers

(a)	Find the median and the interquartile range of the times of the Cheetahs.	[3]
		••••
		••••
		••••
The	median and interquartile range for the Panthers are 103 minutes and 14 minutes respectively.	
(b)	Make two comparisons between the times taken by the Cheetahs and the times taken by the Panthers.	the [2]
